

A hand with a red bracelet is shown holding a red ribbon that forms the letter 'X' in the word 'STOP'. The background features a faint world map. The word 'STOP' is written in large, bold, black capital letters.

STOP

#Aids

1st December
WORLD AIDS DAY

Today, young people (15-24) account for 40 per cent of all new adult HIV infections. Each day, more than 2400 young people become infected with HIV—and some five million young people are living with HIV
